July 11, 2017

Dear Mill Park Village and Wildflower Residents,

We want to update you on the City's work in your neighborhood.

As you know, in May we had Closed Circuit Television Camera (CCTV) scoping conducted in the neighborhoods to determine the status of the underground stormwater pipes prior to conducting paving work.

When we reviewed the footage, we discovered what appeared to be some issues with the stormwater pipes. We asked a third-party consulting engineer expert to also review the CCTV footage, and they identified that some of the pipes were indeed crushed, damaged, and in need of replacement.

We are awaiting final recommendations from the outside consulting engineer so we can present options to the City Council and to the neighborhoods for review and discussion. At a minimum, it appears that the grind and overlay work we had hoped to complete in your neighborhood this summer will be delayed.

We apologize for the uncertainty you may have experienced while you have waited to hear from us. We hope to have more information soon and will keep you updated.

Sincerely,

A handwritten signature in blue ink, appearing to read "Kamal Mahmoud", is written over a horizontal line.

Kamal Mahmoud
Acting Director, Public Works
